Religious Persecution in Europe France and the Huguenots

We make history come alive: immerse yourself in the world of the 17th and the 18th century. Find out how and why Louis XIV, the Sun King, persecuted the Protestants being called Huguenots. The price they had to pay for their belief. How they struggled. How they escaped and how their host countries have profited from them. Discover the long path from persecution to complete tolerance towards dissenters.
